EECS 864
Semester Project
Design Review
Requirements

Schedule a ~30 min meeting with me as close to 3/26 as possible to:
1) Present the current status of your design.
2) Compare where your group is with respect to the original project schedule.
3) Discuss what you have learned so far.
4) Discuss what is left to be done to complete the effort.
5) Present a revised project schedule.

You may prepare a few (3-6) PowerPoint slides to make the above points. (E-mail the PowerPoint to me before the review.) No write up required.
