

Information & Telecommunication Technology Center

Dr. Perry Alexander, Director

Professor, Electrical Engineering & Computer Science
alex@ittc.ku.edu, +1.785.864.7741

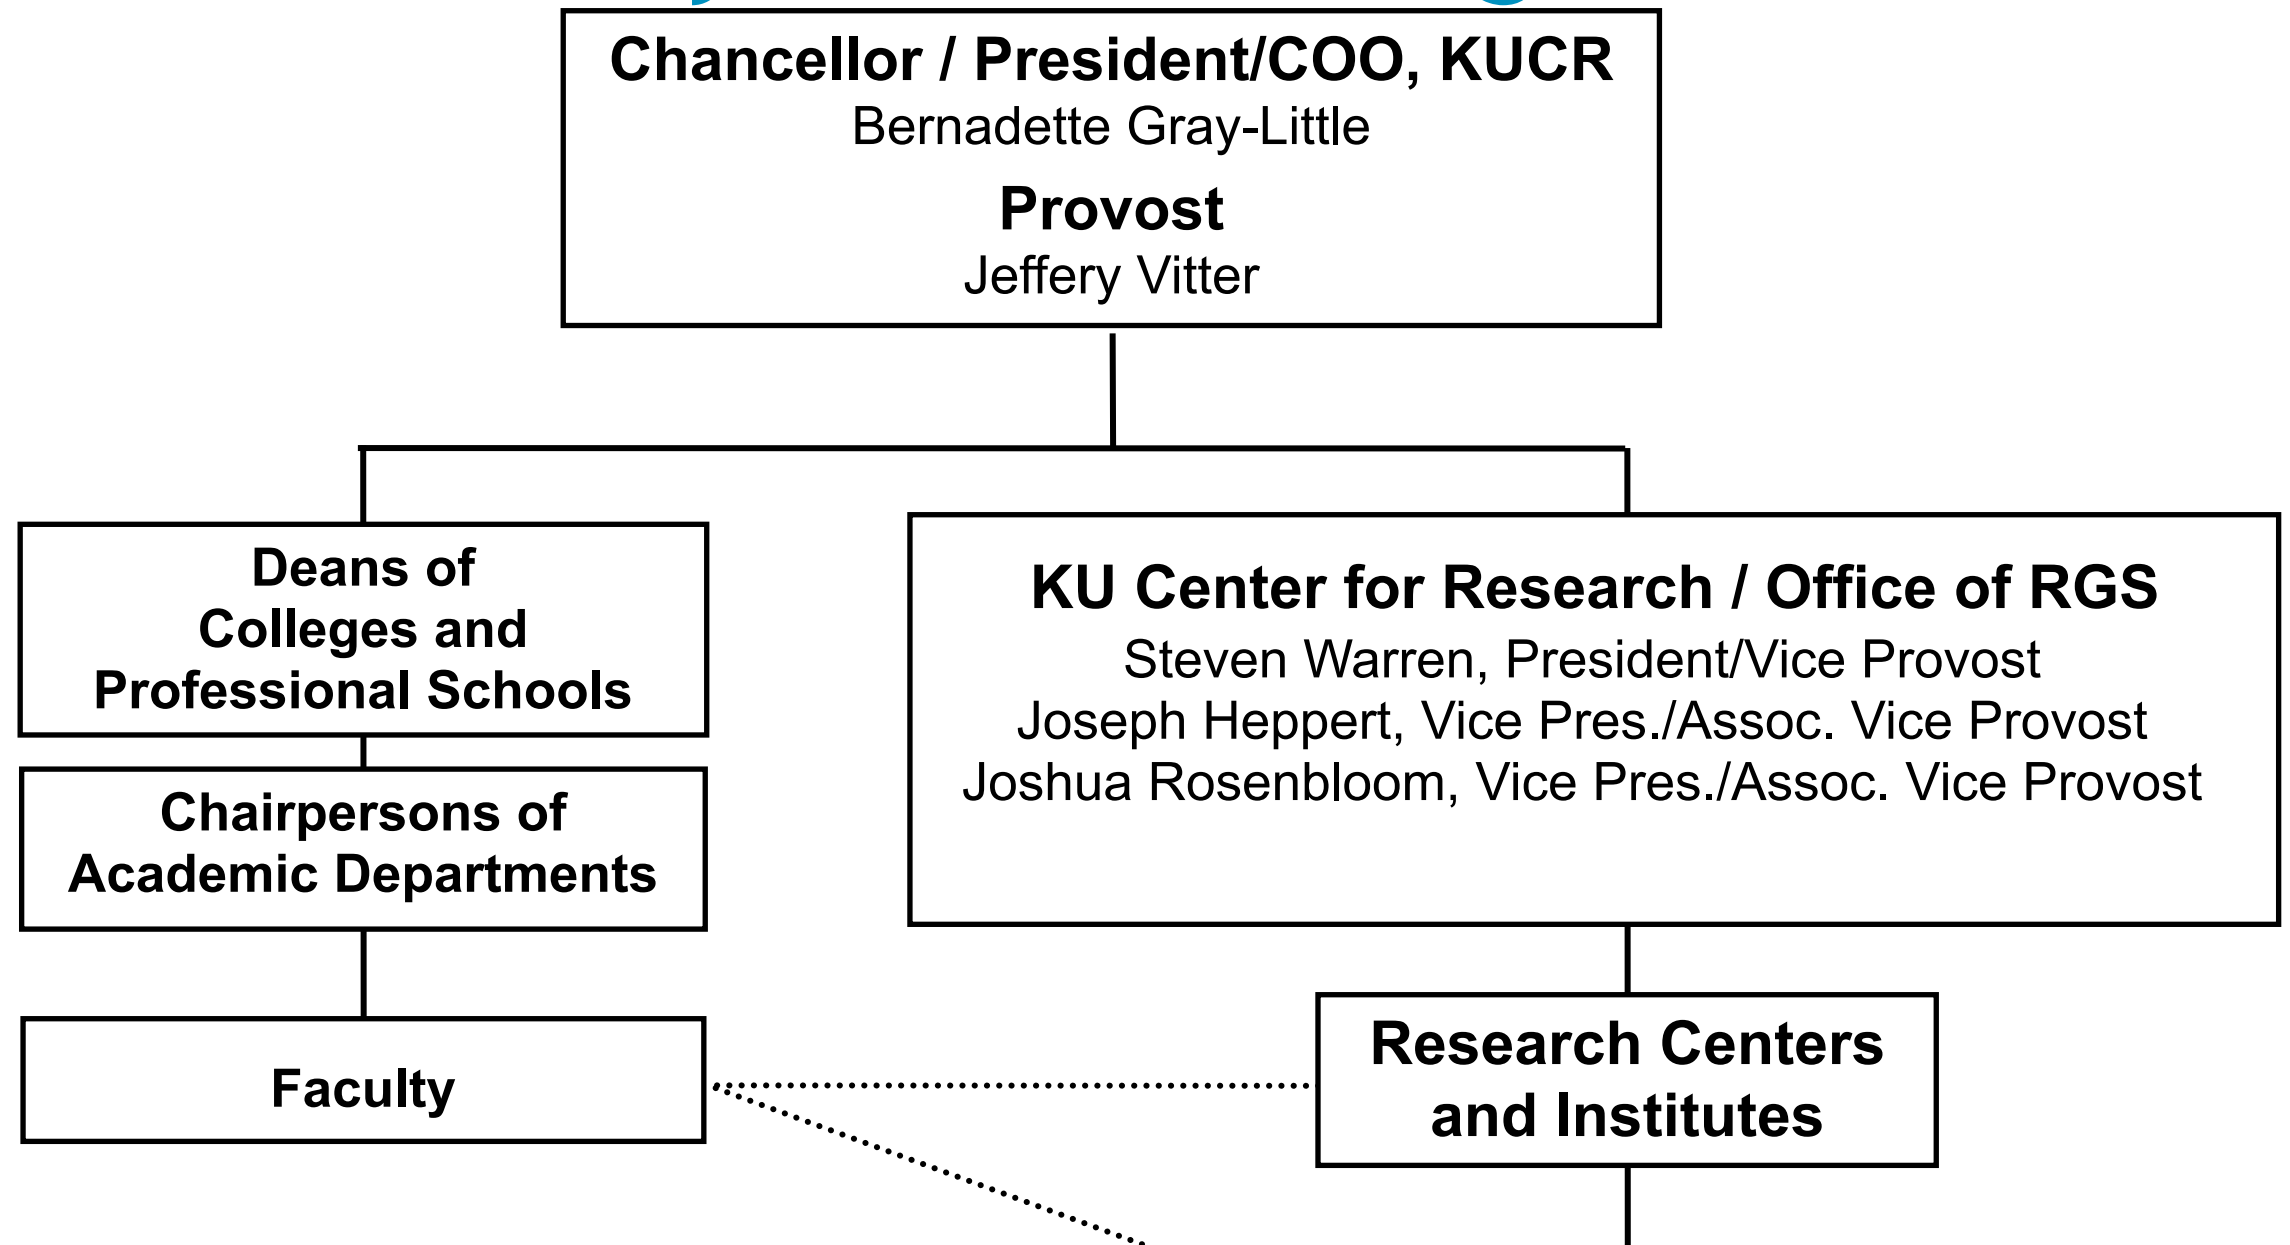

Dr. James Stiles, Associate Director

Associate Professor, Electrical Engineering & Computer Science
jstiles@ittc.ku.edu, +1.785.864.7744

ITTC Mission

- **Research** - To create and disseminate fundamental knowledge and new technologies
- **Education** - To educate the next generation of technology workers, leaders and educators
- **Economic Development** - To transfer knowledge and technologies into the economy

University Research Organization

ITTC History

- **Established in 1995 merging RSL and TISL**
 - Telecommunication and Information Sciences Laboratory (1985)
 - Remote Sensing Laboratory (1962)
- **State and National Center**
 - KTEC Center of Excellence in Information Technology
 - NSA/DHS Center of Excellence in Information Assurance Education
- **Over \$4M per year in external funding**
 - Sponsors include NSF, DARPA, AFOSR, ONR, NASA, NIH, ORNL, KTEC, industry...
 - KU RGS supported Research Center

ITTC People

- **Researchers, Technical and Support Staff**
 - 35 Tenure-track faculty
 - 1 research faculty
 - 8 technical staff
 - 6 support staff
- **105 Students from EE, CS, CoE, Math, Education**
 - 42 PhD students
 - 47 MS students
 - 14 BS students

ITTC Expenditures

- State
- Federal
- Tech Comm
- Industry
- Other

ITTC Laboratories

Communications & Networking Systems
(Gary Minden)

Radar & Remote Sensing
(Jim Stiles)

Computer Systems Design
(Perry Alexander)

Intelligent Systems
(Arvin Agah)

**Interdisciplinary
Systems
Approach**

Information Assurance
(Perry Alexander)

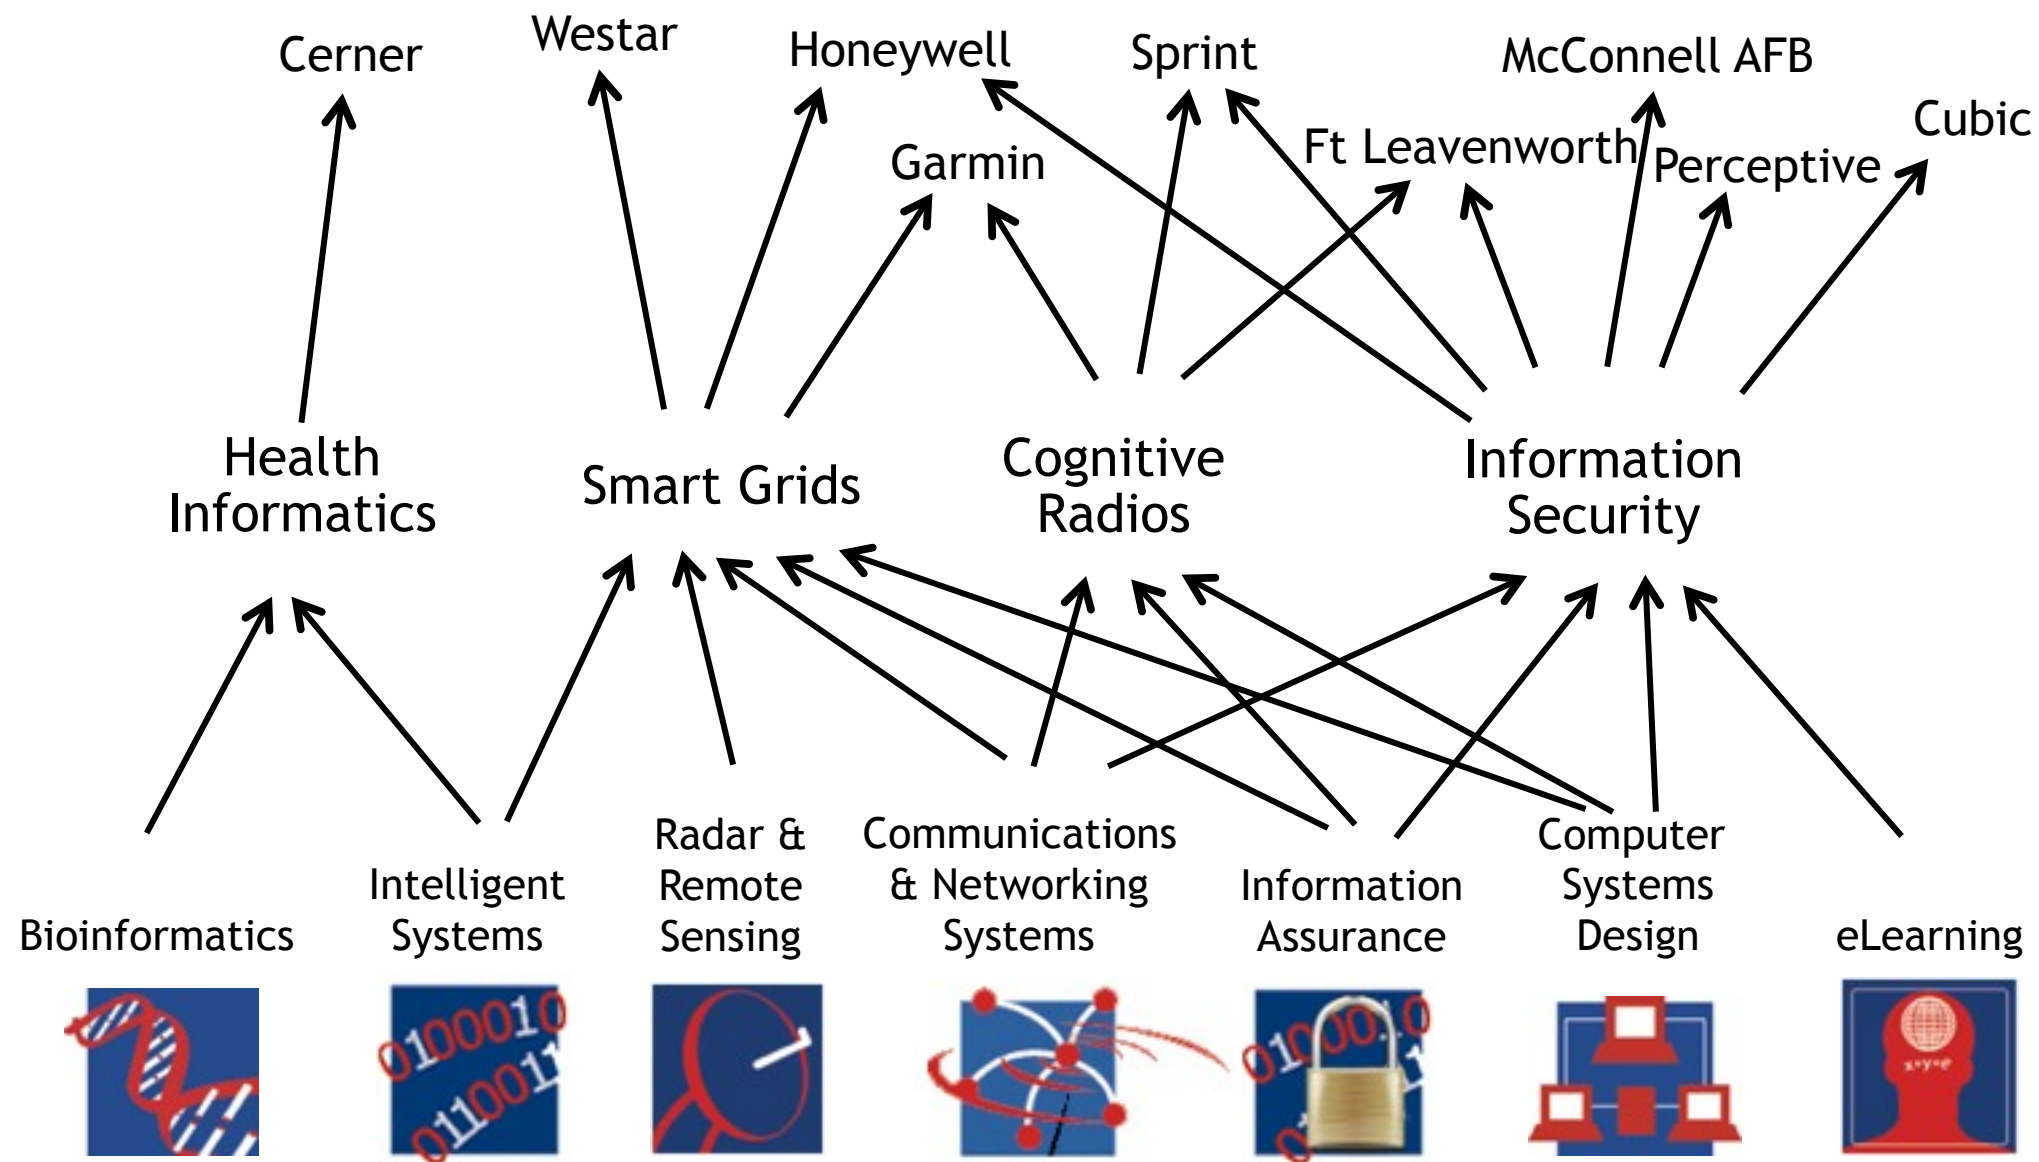

Bioinformatics
(Xue-wen Chen)

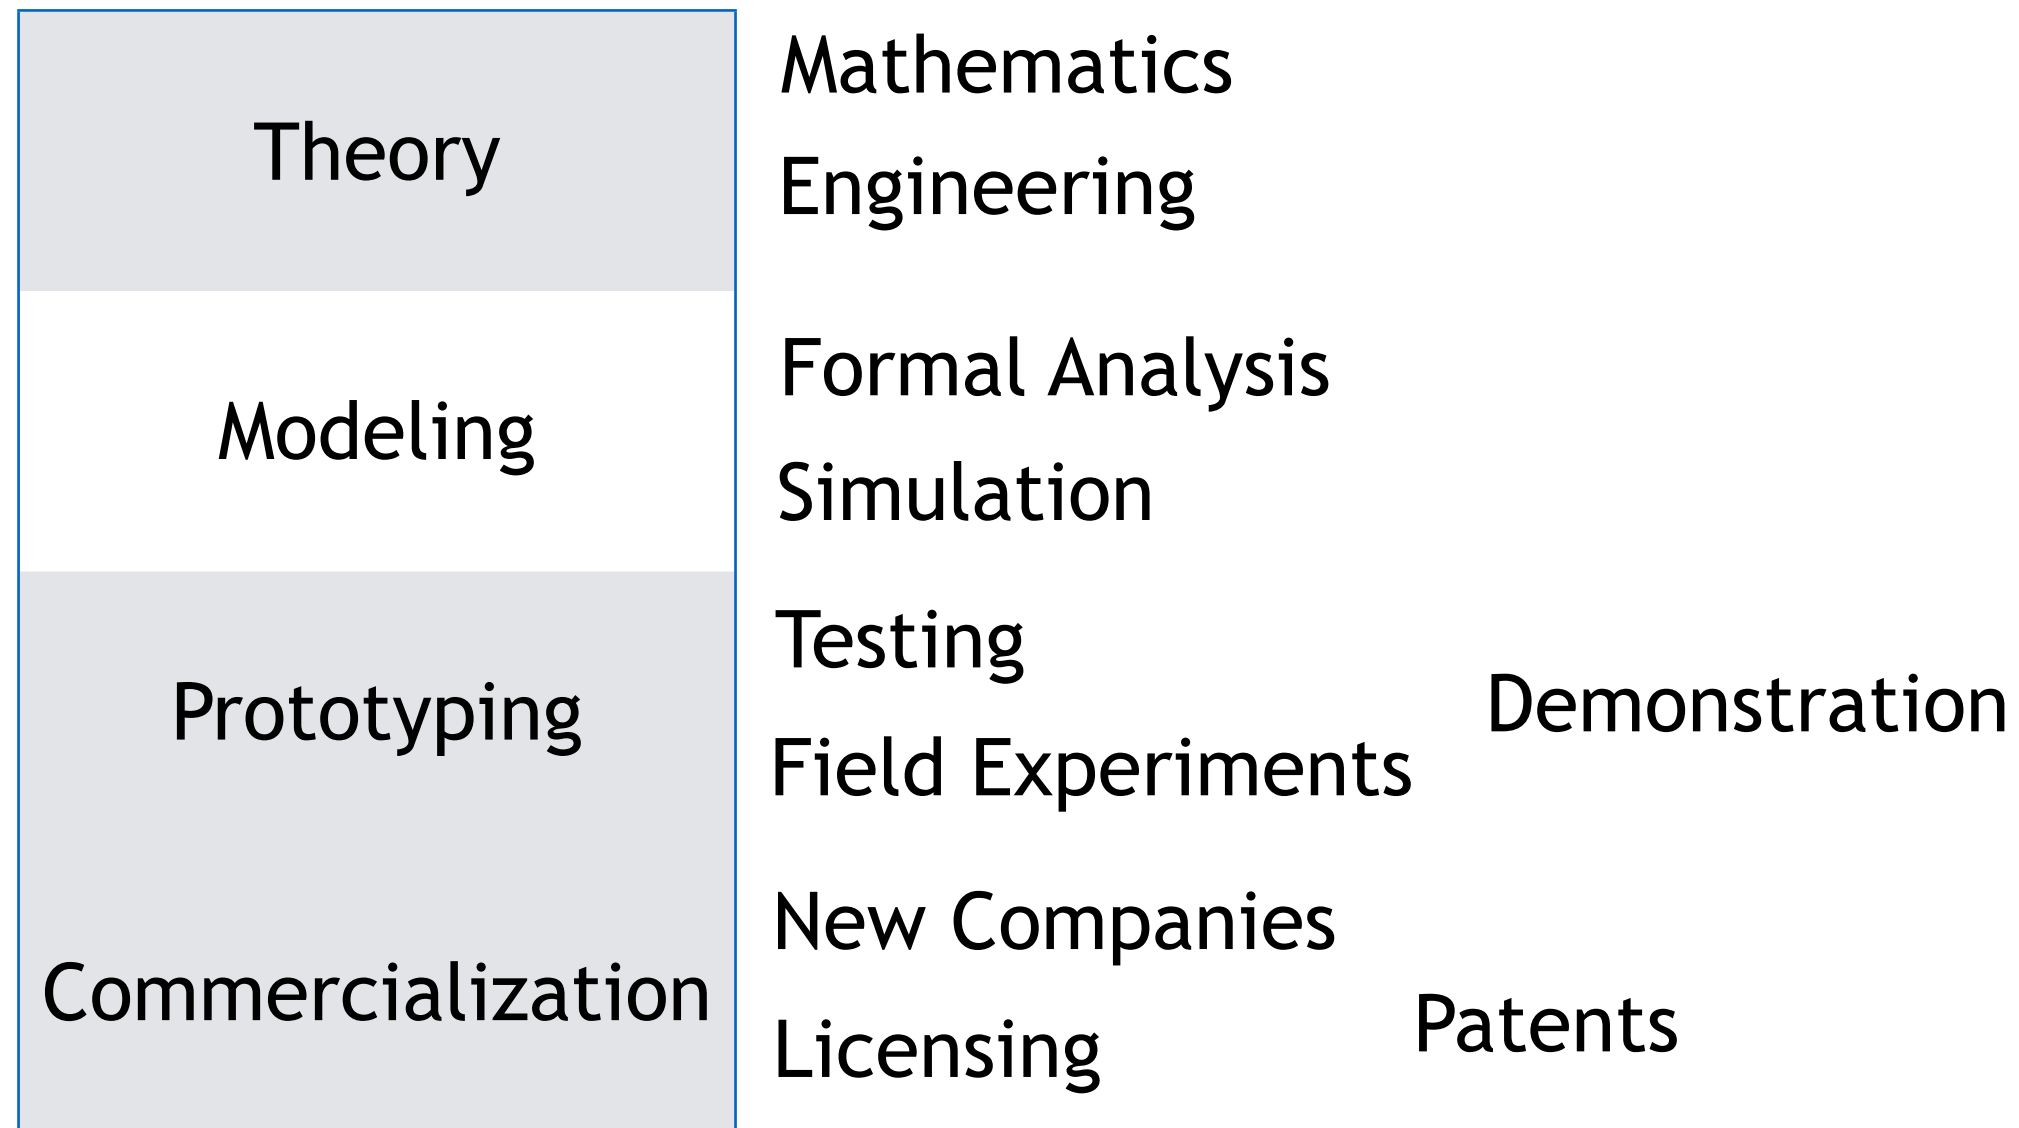

e-Learning
(Ed Meyen & Jim Miller)

ITTC Commercialization Clusters

ITTC Approach

ITTC Facilities

Software Radios

Computer Cluster
(1000+ cores, 35 TB)

Core Network and
Experimental Fiber
Links

RFID Designs

Optical Systems
Laboratory

ITTC in Washington

- **Current Program Managers**

- Victor Frost - Program Director, NSF Computer and Network Systems, Directorate of Computer & Information Science & Engineering
- Glenn Prescott – NASA Program Executive for Technology

- **Past Program Managers**

- Ron Hui - Program Director, NSF Electronics, Photonics and Device Technologies
- Joe Evans - Program Director, NSF Computer and Network Systems, Directorate of Computer & Information Science & Engineering
- Gary Minden - Program Manager, DARPA Information Technology Office

ITTC Achievements

- **Significant Research Awards**

- \$4.7M NIH Award for cold room expansion
- 3 NSF CAREER Awards
- 1 AFOSR Young Investigator Award
- \$1.75 million in airborne telemetry projects
- NSF GENI and MRI Awards

- **National Designations**

- NSA/DHS Center of Excellence in Information Assurance Education
- International Foundation for Telemetering Partnered University
- ICFP International Programming Competition Host

ITTC Achievements

- **Fellowships and Scholarships**

- NSF GK-12 Fellowship
- Google Anita Borg Fellowship
- Google GRAD Fellowship
- DoD SMART Fellowship

- **Computing Partnerships**

- KU Microscopy Center
- KU Center for Research Methods
- RGS Graduate Computing

ITTC Moving Forward

- **Revisit and realign laboratories**
 - Optimize for existing faculty
 - Invert structure to expose laboratories
- **Examine grant writing efforts**
 - Improving submission and hit rates
 - Looking at larger, center-level grants
- **Establish a computing services organization**
 - Deliver high-end computing services outside ITTC
 - Establish interdisciplinary partnerships across KU

Charge to the IAB

- **How do we better engage industry?**
 - As research sponsors and affiliates
 - As research partners
- **What are viewed as “hot” areas?**
 - Emerging research areas
 - Emerging areas for commercialization
- **Can we do our job more effectively?**
 - Efficient use of scarce resources
 - Better targeting our efforts
