

EECS 723 - Microwave Engineering (Spring '09)**MWF** 9:00 - 9:50

Room 2112 Learned

www.ittc.ku.edu/~jstiles/723/eecs723.html**Instructor:** Prof. Jim Stiles**Office:** 3030 Eaton Hall 864-8803
210 Nichols Hall 864-7744**E-mail:** jstiles@eecs.ukans.edu**Office Hours:** MF 9:00-12:15, W 10:00-11:00, or by appointment.**Catalog Listing:** Survey of microwave systems techniques, and hardware.
Guided-wave theory, microwave network theory, active and passive microwave components.**Prerequisite:** EECS 420**Course Objective:** To provide an introduction to microwave theory and techniques, including network theory, transmission lines, passive devices and active devices.**Required Text:** *Microwave Engineering* by David Pozar, 3rd edition, 2005.**Grading:** The following factors will be used to arrive at the final course grade:

Homework	10 %
Design Projects	25 %
Exam I	20 %
Exam II	20 %
Final	25 %

Homework: Homework will be collected at the beginning of class on a roughly daily basis.

Exams: No make-up for missed exams will be given. **If** you have attended 75% of the lectures **and** have 75% on the homework, **and** you have a legitimate excuse for missing an exam (e.g., significant illness family emergency), the first missed exam will be scored by taking 90% of the average of the other exams. Subsequent missed exams will be scored as zero. Note this policy does **not** mean that you can "drop" one exam!

Ethics: Academic misconduct will **not** be tolerated. It will result in a **failing grade** and may result in further disciplinary action by the University. For details see the Academic Misconduct section of the university timetable.
