Agenda

Expanding Perceptions:
Collaborative Opportunities with ITTC
In Software and Communications Technology

Hosted by
The Information and Telecommunication Technology Center

October 30, 2000
Doubletree Hotel—Seattle 1 & 2
10100 College Boulevard
Overland Park, Kansas

9:00 -- 9:55  Registration
Complimentary coffee and tea

10:00 - 10:15  Introduction—Victor Frost, ITTC Director

10:15 -- 10:30  Perry Alexander, Associate Professor of Electrical Engineering and Computer Science
Rosetta: Reducing the Cost of System Level Information

10:30 -- 10:45  David Andrews, Associate Professor of Electrical Engineering and Computer Science
Embedded and Real-Time Distributed Systems

10:45 – 11:00  Jerry James, Assistant Professor of Electrical Engineering and Computer Science
Construction & Integration of Distributed Systems

11:00 – 11:15  Steven Lohmeier, Assistant Professor of Electrical Engineering and Computer Science
Wireless Communications and Radar for the New Millennium

11:15 – 11:30  Hossein Saiedian, Professor of Electrical Engineering and Computer Science
Improving the Quality of Software Engineering and Management for Kansas City Metro Industries

11:30 – 11:45  Timothy Johnson, Executive Director for Operations and Applied Technology
Tech Transfer Overview

11:45 – Noon  Q and A

Noon  Luncheon Speaker
Scott Hinton, Chair of KU’s Department of Electrical Engineering and Computer Science
Technology-Enhanced Learning Environments

1:30 – 2:00  Closing remarks and networking
